

# CAPABILITIES STATEMENT

## Overview

Access Communications Group, LLC (ACG) is dedicated to provide **Telecommunication and Construction Services** in the USA by ensuring the highest level of quality and dependability.

Established in 1996, ACG is capable of managing both **large-scale and small-scale projects** from conception to completion.

With a strong commitment to excellence and customer satisfaction, ACG has emerged as a trusted partner for both **Commercial Customers and the Federal Government**.

ACG team is flexible, well skilled, heavily certified, and maintains the ability to **exceed expectations** both locally and nationwide.

## Certifications

- TX Alarm License #B03049501
- Low Voltage NM - 802411034
- Bicsi RCDD - 192418R
- UPRR Fiber Contractor
- Siemon Engineer & Installer
- Crestron, Veeam & Shure Dealer & Engineers
- TXDOT Certified
- Belden Certified
- Isonas Certified Technicians
- IMAGE Certified
- OSHA
- ISO QMS Quality Management Systems
- Kantech Certified Installer & Dealer
- ISO 9000 -TS 16949 Internal Auditor
- TS Core Tools - Sigma Black Belt
- CISCO Federal Authorization
- HDD Training Course - Horizontal Drill
- USACE Construction Quality Management QMC
- Certified Environmentally Responsible Contractor (CERC)

**BONDING CAPACITY:  
\$12.5M SINGLE / \$50M AGGREGATE**

## Services

### IT COMMUNICATIONS

- Design - Turn-Key Services
- Wireless Access Points
- Network Infrastructure
- Phone Systems

### STRUCTURED CABLING

- Inside and Outside Plant ISP/OSP
- Copper and Fiber Optics
- Aerial and Underground
- Fusion/Splicing
- Drilling, Boring & Trenching
- Utility Services

### SECURITY

- Access Control Systems
- Video Surveillance Systems

### AUDIO VIDEO

- Secured Video Teleconferencing
- Sound Masking
- Multi-Room Solutions

### GENERAL CONSTRUCTION

- Design-Build
- Renovations
- Historic Restorations
- Remodel
- Additions
- Repairs
- Upgrades
- HVAC
- Construction Management
- Commercial Fencing
- Building Finishes

# ACG PAST PERFORMANCE & ONGOING PROJECTS

## ADB - FIBER, DRILLING & CONDUIT INSTALLATION - EL PASO, TX VARIOUS CONTRACTS

**SOW:** Installation of fiber and conduit, including all splicing, testing, turning up C-RAN, running all appropriate reports and required testing, directional boring, and handholes.

**Value:** \$1.7 M

**POP:** 2022-2023

our work sites  
w/ ADB

This project required working around the customer's schedule to include **Overnight Labor**

## WASTE ISOLATION PILOT PLANT (WIPP) - SIMCO 5Y CONTRACT HVAC MAINTENANCE SERVICE - CARLSBAD, NM

DOE - WIPP - PO# 522548

**SOW:** Provide all labor, transportation, equipment, and all other essentials necessary to perform the maintenance and repair for HVAC equipment

**Value:** \$3,118,394

**POP:** July 2024 - Ongoing

## IHS - CABLE AND FIBER INSTALLATION - GALLUP, NM

75H71021P01829

**SOW:** Infrastructure Cable Rerouting – Fiber and Copper is to provide professional IT services, installation/re-installation, and provide an underground trench of the handhole.

**Value:** \$710,566

**POP:** Aug 2021 - March 2023

## CITY OF EL PASO FIBER INSTALL - EL PASO, TX

**SOW:** Providing various types of work, including excavation, conduit installation, and fiber optic infrastructure. Installing fiber optic cables along designated pathways, ensuring alignment and installation per the work prints. Placing handholes, preparing pathways, and integrating splicing enclosures. Installing support structures, splice trays, and related components to ensure seamless connectivity. Completing all work in accordance with the provided specifications and standards.

**POP:** October 2024 - Ongoing

**Value:** \$5.63 M

## CITY OF LAS CRUCES - FIBER UPGRADE - LAS CRUCES, NM

21-22-076

**SOW:** Installation of a fully operational fiber optic communications system including conduit, SMFO communications cable, IT pull boxes, splice vaults, splice closures, building penetration, and terminating connections inside building structures

**Value:** \$692,571

**POP:** Nov 2022 - June 2023

## AT&T - AT&T OSP MIDLAND TX - MIDLAND, TX - A025N9Q

**SOW:** Provided various types of work, including excavation, structure, and underground services. ACG specifically excavated and placed AT&T facilities at depths and alignments consistent with the shown prints. Moreover, ACG set hand holes, placed ground beds, and installed rod/pull/blow innerduct and fiber optic cables as indicated on AT&T's work prints.

**POP:** October 2022 - December 2022

**Value:** \$450,734.80

## LEIDOS - NASA CONDUIT INSTALLATION - WHITE SANDS MISSILE RANGE , NM

SUB: P010292231 (PRIME: 80TECH21DA002)

**SOW:** Trenched and/or drilled 5,000 lineal feet of trench in order to install approximately 10,000 lineal feet of 4" HDPE conduit. ACG set a total of 11 hand holes. Then we installed approximately 10,000 lineal feet of fiber optic cable to connect the WSC facility to Building 200. We finished with restoration of the cable pathway.

**Value:** \$659,756.00

**POP:** September 2023 - April 2024

## FIBER OPTIC INSTALL MARSHALL ARMY AIRFIELD - FORT RILEY, KS

SUB (9th DEGREE, LLC): 24-00004

**SOW:** ACG successfully installed three 12-strand, single-mode fiber optic cables. The project included installing 4" Schedule 40 HDPE conduit, trace wire, and detectable warning tape for enhanced safety and reliability. Wall-mounted fiber enclosures and splice enclosures were implemented at strategic locations, ensuring seamless integration with existing infrastructure.

**Value:** \$219,960.00

**POP:** April 2024 - 90% Completed
